C#

Java

HTML

SQL

.NET Core

Codewars

---

## Experience

### **TrueCoders Bootcamp / Software Engineering Course**

May 8, 2023 - July 14, 2023

I equipped myself with practical and advanced coding skills. I learned the art of organized, clean coding, and most importantly how to write in multiple languages that are used throughout the software developing field.

## Education

### **TrueCoders Bootcamp / Software Engineering Course**

May 8, 2023 - July 14, 2023

This course was phenomenal. Not only did I learn a ton in a short amount of time thanks to the knowledgeable teachers enthused students but I'm in a position where I can actually be of service to a company who needs hard skills such as C# and Java to say the least. And my education is only just beginning.
